

We looked at what would be best for our school community overall and decided to offer a subscription-based option to allow flexibility and cost savings to you as a member. We have created not only a great place to get your class schedules but also immediate access to important school information and schedules in a quick easy access app.

We understand that other coffee shops don't charge for their apps and we applaud them. We are not them, we are a small fair-trade organic coffee shop offering our school community with a service to benefit not only their hectic mornings but their taste buds. We understand that you have a limited time as part of our everyday community and want to offer you the flexibility to utilize this service while you are here and great opportunity to have Pour Mikey's coffee at your home directly at your fingertips.

We realize that you have limited time to get your coffee, food and still get to class and felt that saving you on average 8 minutes waiting online for your food in the morning would be something that would help you.

Oh yeah, did I mention full access to pre-ordering at our Kingsmen Café, allowing you to bypass the busy lines, get your breakfast sandwiches and specialty coffees waiting and ready to go for you when you arrive!

Simply tap on your desired morning "Crush", add your flavors or other specialty items to it and check out. Pay via your CC or the proprietary "Cash" app which is integrated into our process to make it easy and safe for you and your children to use the app.

For us with that repeat "Crush" or longstanding love affair with our morning brew we understand how it can be annoying to go find it every day. So, we store your order history in order that you can just click on your past items, resubmit your order and you're done. It will be waiting for you like it's your first date.

So, to review: You get access to your Next Class Pop-Up reminder, school calendar, athletic calendar, bell schedule, lunch menu and School Handbook all in one place [with quick easy access to Special Offers and giveaways]. That, along with a full cafe menu available for pre-ordering.

All this for \$4.99 per year per family.
